SUMMARY

Software Engineering student at Universiti Tun Hussein Onn Malaysia with hands-on experience in full-stack web and mobile development, cloud-integrated applications, and system design. Skilled in building scalable, API-driven solutions using Next.js, React Native, and Supabase, with practical exposure to real-time databases and secure data management. Awarded Bronze Medal at MIIX 2024 for technological innovation. A driven and analytical individual with strong problem-solving and communication skills, eager to apply technical knowledge in a dynamic software development environment. Keen to contribute to impactful projects by bringing software development capabilities and a collaborative mindset to support an organisation's digital innovation and transformation initiatives. Currently seeking an industrial training opportunity from **3 August 2026 to 15 January 2027**.

EDUCATION

Bachelor of Computer Science (Software Engineering) with Honours

Mar 2024 – Present

Universiti Tun Hussein Onn Malaysia | CGPA: 3.71

Diploma in Information Technology

Aug 2021 – Jan 2024

Universiti Tun Hussein Onn Malaysia | CGPA: 3.29

WORK EXPERIENCE

Frontend Developer Intern

Jul 2023 – Jan 2024

Zafran Resources Sdn. Bhd.

- Led a team of 3 IT interns as Team Leader, coordinating task delegation and ensuring on-time delivery of project milestones.
- Contributed as Frontend Developer for the Death Benefit (Khairat Kematian) Management System: a financial benefit disbursement platform handling member claims, payment records, and benefit tracking.
- Developed responsive web interfaces using Bootstrap 5, improving cross-device usability for end users.
- Managed and optimized MySQL database using XAMPP, supporting reliable data operations for the system.
- Collaborated with cross-functional teams, embracing inclusive teamwork to meet project goals and deliver impact.

PROJECTS

Personal ePortfolio Website

- Built a personal ePortfolio using Next.js App Router, TypeScript, Tailwind CSS, and shadcn/ui, featuring dark mode and project showcase.
- Deployed on AWS Amplify, demonstrating hands-on experience with cloud hosting and CI/CD pipeline setup.

Wellside+: A Mobile Booking and Web-Based Management System for Wellside Barbershop

- Developed a full-stack system managing barbershop operations including customer bookings, service records, inventory tracking, and in-venue payment recording.
- Built the web application using Next.js and mobile app using Expo (React Native).
- Integrated Supabase backend with role-based access control and secure database management for centralized, multi-user data operations.
- Applied Agile development and UML modelling during system design.

WindowSense: A Smart Convenience Window

- Developed an IoT-based smart window system that adjusts based on environmental conditions.
- Designed the mobile application interface using Flutter.
- Integrated Firebase real-time database to enable live communication between Arduino hardware and the mobile app, supporting instant environmental data sync.

CERTIFICATION

AWS AI Practitioner Challenge	Apr 2026 – <i>In Progress</i>
Google IT Automation Professional Certificate Coursera	Mar 2026 – <i>In Progress</i>
CompTIA Data+ Yayasan Peneraju	Feb 2026 – <i>In Progress</i>

ACHIEVEMENT

Dean’s List Award, Universiti Tun Hussein Onn Malaysia, Bachelor
Awarded for four consecutive semesters (Bachelor of Computer Science, Software Engineering) in recognition of academic excellence.
Bronze Medalist, Malaysia Invention & Innovation Expo (MIIX) 2024
Awarded Bronze Medal (Intermediate Innovator) for “WindowSense: A Smart Convenience Window”

ADDITIONAL INFORMATION

Technical Skills
Programming: JavaScript, TypeScript, Python Frameworks: Next.js, Expo (React Native), Flutter, Tailwind CSS, shadcn/ui Database: MySQL, PostgreSQL, Supabase Tools: Git, GitHub, Firebase, Supabase Concepts: Agile Development, UML, System Design, API Integration
Languages
- Malay (Native) - English (Proficient)
Extra-Curricular & Involvement
- Participant & Bronze Medalist, Malaysia Invention & Innovation Expo (MIIX) 2024. Represented UTHM in a national-level innovation competition. AJK Media & Flutter Facilitator, OnnTutelage’25. Managed event media documentation and conducted hands-on Flutter programming sessions for secondary school students as part of the digital upskilling initiative.
